

Brighten. Refresh. Smile.

Professional Teeth Whitening at Chigwell Dental

Achieve a brighter, more confident smile with our safe, professional teeth whitening treatments. Our experienced clinicians use clinically approved whitening systems to lift stains and brighten your natural teeth while protecting enamel. Every treatment is tailored to deliver natural-looking, long-lasting results.

How Does Teeth Whitening Work?

Professional whitening uses a specially formulated whitening gel to gently remove stains from within the enamel. Following a consultation, we assess your suitability and provide custom-made whitening trays with professional-grade gel for safe, predictable whitening from the comfort of your home.

Benefits of Teeth Whitening

- Removes stains caused by tea, coffee, wine and smoking
- Creates a brighter, more youthful smile
- Safe, professionally supervised treatment
- Customised to your preferred shade
- Long-lasting results with good oral care
- Minimal sensitivity with professional guidance
- Boosts confidence in your smile
- Natural-looking results without damaging enamel

Why Choose Chigwell Dental?

Our experienced team combines advanced whitening techniques with personalised care to achieve safe, effective and natural-looking results. We focus on your comfort while helping you achieve a smile you'll be proud to show.

Your Consultation

We'll assess your oral health, discuss your whitening goals, explain the treatment process, and provide personalised aftercare advice to help maintain your brighter smile.
